Lily of the Valley

The Trio of New Peonies

(See colored cover.)

It gives us great pleasure to see the increasing popularity of Peonies, for their is nothing more deserving, and when the merit and beauty of the newer varieties are known, every garden will contain a large collection. Always having a keen appreciation of these superb flowers, we are collecting the finest varieties obtainable and offer here a trio second to none.

Gen. Gordon—Crimson. Brilliant deep crimson, one of the handsomest formed blooms among peonies. Habit strong and vigorous, producing an enormous crop of blooms. Fragrance very pronounced. Unexcelled for yard planting. Price, 35 cents.

Cuprea Superba—Pink. This is the finest early pink peony that we have for cut flower purposes. It is one of the earliest to bloom; produces an enormous flower, 6 to 7 inches in diameter, on long stem; deliciously fragrant. Fully as effective for decorative purposes as the finest chrysanthemum. Price, 35 cents.

Festiva Alba—White. Enormous full double bloom, petalage very broad; color snow white. Vigorous grower; grand habit; splendid strong stem; early bloomer. One of the most valuable of the white section and always in greater

demand than any other peony. A grand variety for cemetery planting. Price, 35 cents.

THE TRIO OF NEW PEONIES

Large Plants. The Three for 95c.

TIME FOR PLANTING PEONIES.

The best time for planting the Peony is as early as possible after the middle of August, and all planting should be finished not later than the 15th of November. Peonies may be as successfully planted in the spring as in the fall, but, as before stated, it will take an additional year for them to develop into normal plants.

DRACENA TERMINALIS.

The Great Crimson-Foliaged Plant for the House. (See colored cover.)

A superb species, with rich crimson foliage, so marked with carmine-pink and creamy-white that words cannot describe the exquisite coloring. This is one of the most admired of the decorative species, its elegant habit and extremely beautiful, lively coloring giving it marked value. It is a rapid grower, and for room adornment or as a vase plant for outdoor use it is indispensable. Price, nice young plants 25 cents, larger plants 50 and 75 cents each.

LILY OF THE VALLEY.

Too well known to need any special description. Everyone knows their value for outdoor blooming, but all do not realize that their sprays of fairy bells can be obtained in winter just as easily. If you wish them for Easter, start them in February. We can supply the bulbs all winter. Price, 5 cents each; 50 cents per dozen.

New Dwarf Crimson Rambler.

(Hardy Everbloomer.) (See colored cover.)

Mme. Norbert Levavasseur. This new Rose has been the sensation among Roses this year in Europe, where it originated and was awarded a first-class certificate by the Royal Horticultural Society of Great Britain (the highest honors attainable). Evidently this is one of the most valuable introductions in the way of roses in recent years. Price, young plants 25 cts; large 2-year plants, 50 cts.

The Christmas Collection

POSTPAID

BULBS FOR WINTER FLOWERING

ONLY 40 CENTS

After careful testing, consultation with our Holland bulb growers, and painstaking study, we have succeeded in forming a collection of winter-flowering bulbs, which can easily be brought into bloom at Christmas time by any amateur. This collection will give you a window garden full of brilliant, fragrant and delicate flowers for several weeks. Buy the bulbs early in the fall, and plant them at once in pots or boxes. Water them abundantly immediately after planting, cover the tops of the pots with excelsior and place in a dark closet or cellar for four or five weeks until the roots are well grown. Bring them out to a sunny window three or four weeks before the blooms are desired, as the tops will grow strong and rapidly after the roots are well grown. These directions apply to the Hyacinth, Tulips and Narcissus, but for Chinese Sacred Lily see directions on page 9.

UN-NAMED DOUBLE HYACINTHS IN SEPARATE COLORS

These are selected unnamed sorts, and are chiefly used for outdoor planting, but can also be used for pot culture, although we advise using the named varieties for house culture. These are just what is wanted for massing in borders or display beds. These bulbs are the product of one of the best growers in Holland, and are good size, solid, and will produce splendid flowers. We offer them in the following separate colors:

PURE WHITE, BLUSH WHITE, ROSE, PINK,
RED, LIGHT BLUE, BRIGHT BLUE,
PURPLE AND YELLOW.

Price, 5 cents each, 60 cents per dozen by mail, postpaid.

EXPRESS OFFER:

For \$3.50 we will send by express (purchaser paying the charges) 100 Hyacinths in any color or colors, single or double, which will make a bed of 15 feet in circumference or 5 feet in diameter, composed of 5 rows planted 6 inches apart. If your bed should be of another shape or larger, and would require more than 100, we will offer them at the same rate.

Fine Named Single Hyacinths

Price, Your Selection 10 Cents Each.

The Single Hyacinth by many are not so highly thought of as the double, yet they are to be preferred for bedding, as the truss is not so heavy and consequently does not fall over but stands erect. While the individual single bells are not quite as pretty as the double, the grace of the erect truss makes it better for pot culture also. We have revised our list and can safely say we offer you the cream of Single Hyacinths now grown.

Double and Single Tulips, when associated together and planted in front of shrubs, maintain a longer display than if either are separately planted. One of the prettiest ways to plant them is in the sod next the foundation of the house where they will come up and bloom year after year with no care.

open Rose, a free bloomer and a very excellent pot Rose. It is a vigorous, bushy grower, with healthy, bright foliage of the deepest green. This is unquestionably the best dark velvety-red Rose yet produced. Price, 10c each; large two-year-old plants, 25c each.

THE RICHMOND.

This Rose is the newest and best red Rose yet introduced. It is as free a bloomer as Bride or Bridesmaid; with four long stems. Its color is of a gorgeous scarlet crimson. Price, 50c.

KAISERIN AUGUSTA VICTORIA.

This beautiful Rose has not only a royal name, but is a royal Rose as well. We have white Roses that have elegant buds, but when full blown are not all that is desired. This Rose combines both these good qualities. It is a continuous bloomer, producing successive crops of buds, and formed with large petals of best substance; shows no center when fully open. Color a pure snowy white. Price, 15c; two-year-old, 35c.

The Superb Yellow Rose, MARECHAL NIEL.

The most popular of all. A Rose so famous as to really require no description. Its magnificent golden-yellow buds are worn the world over. The reports from Southern growers tell of single plants showing one and two thousand blooms of Marechal Niel at a time. It is almost universally held to be the finest climber for indoors or out, where the climate admits of its cultivation. Price, 15c each; two-year-old, 35c.

THE BURBANK ROSE.

A Hardy Ever-Blooming Rose.

The flowers are double, of fine form, nearly three inches across. The color is a deep rose-pink, shading to beautiful soft rose at the center. The petals are well incurved, so that the center is hidden. In September and October the outer petals change to a deep, rich carmine. Price, 10c each; large two-year-old plants, 30c each.

CLOTHILDE SOUPERT.

This Rose originated with Messrs. Soupert & Notting, of Luxembourg, Belgium. It is a strong, vigorous grower. The flowers are large, double and beautiful in form, with style of the beautiful Rose "Ball of Snow." The flowers are borne in sprays, and the color blends from a soft shell-pink to a pure satiny-white. Roses with both these colors are borne on the same plant at the same time. No other Rose approaches it in flowering qualities. Price, 10c each; large plants, 30 cents.

NEW ROSE, BESSIE BROWN.

This new Rose is considered one of the finest of the Roses of late introduction, and is well worthy the place it occupies among Roses. It is of the Hybrid Tea class and will stand frost if slightly protected. Blooms are of enormous size, of heavy substance, and are perfect in shape, lasting splendidly when cut. The color is snowy-white, faintly flushed and tinged with pink. Price, 20c; two-year-old plants, 40c.

LADY BATTERSEA.

This new Rose is considered by many Rose fanciers to be the finest variety of 1902 introduction. It has long, oval buds, sharply pointed, very striking in form; the color is bright cherry crimson; the stems are stiff and extremely long for a red Rose; a vigorous grower, not very full, but an unusually showy variety. Lady Battersea belongs to the Hybrid Tea class, and if protected with evergreen boughs or straw, it can be left in the ground all winter without danger. Do not omit this valuable Rose from your list. Price, 20c each; two-year-old plants, 40c.

PINK LA FRANCE.

We have always given this the first place—the Queen of Roses. It is of superb form, and double as a Rose can be. No variety can surpass it in delicate coloring—silvery-rose shades, with pink. It has a satin sheen over all its petals. It is most universally regarded as the most useful of Roses, for it is hardy beyond question. Price, 15c; large two-year-old, 35c.

Price, strong plants, 20c each; three distinct kinds, 50c.

Asparagus Sprengeri.

Asparagus Sprengeri

When introduced, at a high price, this variety was received with some hesitation as to its desirability, but after only a limited trial it has come forward with such prominence that the supply will be inadequate to the demand for some time to come. Not only is it useful for cutting in sprays for fine cut-flower work, more particularly in connection with large roses, etc., but grown in suspended pots, it makes one of the prettiest decorative house plants we know of. Used in decorations, as, for example, in the decorations of mantels, nothing can equal it. It is also a handsome thing for ferneries and hanging baskets. Price, 10c each; three for 25c; large plants, 25c each.

The Large Leaved Flowering Begonias

Chinese Azalea

Chinese Azalea Indica

Price, 10c each; three for 25c.

New Begonia, Vernon

This elegant new variety is of unusual merit as a bedding sort, flowering fully as freely when planted out as when grown as a pot plant. It begins flowering when first planted and continues throughout the whole season until stopped by frost. Foliage rich, glossy-green, often shaded deep bronze.
